Create new

❌ cloud-demo388-PolicyDefinition (Policy details)

- I contacted Udacity support team. And I had them fix the error from their side. After that, I can create new resources again

2. Lighter detection model cannot detect the lighter in the image. It had very low precision and high recall, because It didn't have enough training data – only 45 images
   - To increase precision, I collected more images in the internet for training, and finally the model got the higher precision
